

Solar Schoolhouse Sonoma County 2017 Educator Workshop Series

Location: Solar Schoolhouse,

(see website below for directions) Sebastopol, CA

Dates: Wednesday afternoons.

Time: 4-7pm

Cost: FREE, for Educators

Contact: info@rahus.org or 707-829-3154

Instructor: Tor Allen,
Founder and Director of
The Rahun Institute and
Solar Schoolhouse Program.

Since 2000, the Solar Schoolhouse Program has hosted over 1000 educators in professional development workshops, providing curriculum and project materials for exploring solar energy in a k12 setting.

We're excited to offer this new workshop series for Sonoma County area educators. Energize your classrooms and empower your students with solar energy activities and projects. As we move toward a clean energy future, it's important to explore the possibilities through hands-on and project-based activities. Because of its role as the primary energy source on Earth, the Sun's energy is central to these explorations. Workshops will be held in Sebastopol, at the Solar Schoolhouse workshop/live space that is a ZNE (Zero Net Energy) home powered primarily by the sun.

Date	Topic	ES=Elementary School, MS=Middle School, HS=High School
Feb. 22	Solar fountains for School Gardens (ES, MS, HS) Design/build a solar powered water feature for your school garden.	
March 8	Build a Solar Charging Station (MS, HS) Class project designing and building a solar charging station for cell phones, power banks, and Light. Learn how to engage your classroom with this project.	
March 29	Build a Solar L'Oven (MS, HS) Build your own family sized solar oven for use in your classroom. Great to have treats cooking as your students build their own personal solar ovens.	

Educators attending these workshops will receive the Solar Schoolhouse 'Your Solar Home' curriculum, material for specific solar projects, and the training to implement lessons in your own classroom. We'll also be available to consult and help set up a project at your own school or classroom.

Thanks to our generous sponsors, we're able to offer these workshops and classroom materials **FREE** to educators, though an **RSVP is required** due to limited space. Follow the link below to register for the workshop or workshops of your choice.
